SEEN, HEARD AND TOLD
BY THE EDITOR

We cannot but speak the things which we have seen and heard.—Acts 4:20.

The farm picture of last week was claimed by Earl Gillon who farms on Buckputter Creek in Beat Two, and he will get it the next time he finds time to come to Grenada. The picture which appeared week before last has NOT yet been claimed. It is still here for the owner to pick up. Somebody said, he thought, the farm was in the Camp McCain area.

We got mixed up in our series of numbers. We called the picture last week as No. 20, but, this week, we have dropped back to name this picture as No. 19.

This series of farm headquarters pictures is sponsored by the progressive grocery - Jitney Jungle - Al Gully, proprietor. That means that Al gets most of the advertising value from this series of interesting pictures, bdt uses his own money to pay for the greater part of the cost. If YOU think this series of pictures is interesting and worthwhile, tell Al.

With Mabel back on the job from California, we can no longer get by with cut fillers, paid ads and filling up the cracks with my crap and Mrs. Gillon's stuff. We MUST use atleast SOME sassiety dope and SOME news.

Take a look at YOUR expiration date, then do the needful thing at the GCW subscription office - Me or Mabel.

Dont miss Duel In The Sun, a fine picture Sunday night and Tues., Wednesday next week at Grenada Theatre.

His sister in Batesville is sending four dollars worth of the GCW to her brother, William C. McLean, at Tunica. The new reader is a cousin of mine, but, so far as I know, I never saw him. He must be Cousin Alney's boy. He gets 16 months of GCW for his sister's money.

Always writing about Eddie Davis and Speck Davis finally paid off. Eddie's daughter and Speck's sister, now Mrs. L. A. Rhodes of Mt. Carmel, Ill. came in and left three dollars for a new subscription. There has been aregular epidemic fever of marriages in the Eddie Davis home here recently. I dont know whebter he has lost a lot of daughters or gained a lot of sons-in-law.

I not only put in the cash book, the payment of Homer Williams subscription, but am putting it in the paper.

Mrs. Marcia Bell, her many friends in Grenada will regret to learn, appears to be in the last stages of an old age illness from which she has suffered many months.

Ruth Weldy has come cats to give away. She has a mother cat, reputed to be an excellent mouser, and two little kittens. Sex of the kittens are not elaborated on. Whyte Jr. and I, on one side, and Mabel, on the other side are at outs regarding the sex of our fine cat, Buckingham. A slight suspicion on my part is present.

Who remembers when the now venerable W. S. VanOedel was once the king bee in the timber business up about where Grenada Dam is now located.

Mabel, my present fishing partner, and I have about quit trying to catch those stupid little bass up on the lake on old No. 8 east, and have started catching those stupid little bass up near old Kirkman on abandoned No. 7. we fish EVERY afternoon. Lying Davies says he can trace my fishing spots by a pile of burned matches.

Thanks to Farmer and Cousin Richard Carver for a fine watermelon. Thanks to Banker and Cousin Henry Ormna of Los Angeles, for a fine suit of clothing.

See where John Keeton, now of Ole Mess, will soon be graduated and will shortly become another lawyer in Grenada.

It looks like Miss Etoile Dubard is going to teach in Natchez the ensuing year, as she supplied a Natchez address for the GCW.

Ollie Pearson Jr. and his wife dropped in to the GCW office Saturday and took care of their subscription.

It dont look as if the Dubards at Dubarl collaborated enough with Preacher Sutphin because the rains have held off Dubard in recent weeks.

I have got Mabel interested in these stupid little bass which frequent Grenada Lake.

Speaking of the Dubard connection, may we mention that another one of our charter members, John McEachin, came in early this week and renewed. Unquestionably, John McEachin as city manager of Grenada, has done a handmade job here. Grenada is the second of two municipalities in the state which has this form of city government. This form of government in Grenada has had its vicissitudes, as was to be expected, but it seems 'set' now.

GRENADA COUNTY "FARM OF THE WEEK"

Number 19 In A Series Of 52

—This Series Sponsored by Jitney-Jungle, Grenada.

If this is YOUR farm, you can get, without charge, a nicely mounted picture of the farm, but you must come to the Grenada County Weekly and identify it.

While you are in the GCW office, we hope to interview you and get a story, for subsequent publication, about this property and about your family.

If you need other photographs of the above, either the size shown, or larger, or on postal cards, the GCW can, and will arrange for them. A reasonable charge of course will be made for these reproductions. Let us show you samples.

Grenada Getting Ready For Bibger Business In Future

Corner Drug Store, site of a Grenada drug emporium from long ago, has just about completed its new building on the southeast corner of the uptown square, and is moving into the new location. Lickfolds, long time jeweler, and a longtime tenant of Corner Drug Store, owned by Jay Gore, is moving into its new quarters there and will soon be "at home" there. The whoe reconstruction project was under contract from Lockett Lumber Company with Lockett's foreman, George Lambert in entire charge.

Grenada Trust and Banking Company's handsome new quarters on the southeast corner of the square with Day Brothers as contractor, is in the final stages of completion. Their present hopes are that the bank will be fully operating at their new quarters by October 1st.

The Grenada Bank building on the southeast corner of the square has been undergoing major reconstruction under contract to Moss Brothers. For the past three months the bank operation has been carried on just east of its old quarters, and it looks like all of the various improvements will have been made there by November 1st.

Quinns dairy bar has suspended as a dairy bar and some of their quarters are being used by Spivey Kent and Pharmacist Shipp who are establishing a brand new place, not only handling drugs and sundries, but alsi all kinds of hamburgers, pop sandwiches, etc. there.

Futhey Drug Store in the same neighborhood in south Grenada is popping out with a fulltime pharmacist.

Grenada is fixing to pop, it seems.

The McQuay Mfg. Co., which is fixing to establish a plant to build air-conditioning equipment in a Beat One-owned site on the Ross old property between 51 and the I. C. has turned over the architect's plans to the county board of supervisors and has leased quarters from the Glenwild old property, said quarters to be used as a place for would-be workers at hte huge plant to learn their trade to the end that, when the quarters are finally completed, trained workers can step into the plant and start work.

Telephone Operators Cited For Meritorious Service
(no room for picture)

A Certificate of Merit, an award given to telephone men and women for outstanding or courageous service, was presented to Mrs. Levonne McCord and Mrs. Pauline Harlow, operators here in Grenada.

The award was made by C. E. Cox, Mississippi Traffic Supt. for Southern Bell at a Tea honoring Mrs. McCord and Mrs. Harlow. Each Certificate of Merit includes a $50.00 cash award.

On Monday night, April 12, 1954, at 7:00 P. M. Mrs. McCord who was stationed at the long distance switchboard received a call from the residence of Mrs. Edward L. Williams of Grenada to Mr. Williams in Memphis, Tenn. During the conversation the calling party hung up. Mr. Williams, thinking they had been cut off, signalled the operator asking that she ring his wife back and call him when they were ready on the call.

Mrs. McCord rang several times and was finally answered by a child. She asked for his mother and he replied, 'Mama won't talk to me.' Mrs. McCord then called Mrs. Harlow, Evening Chief Operator, for assistance. Mrs. Harlow asked the little boy if his mother was sick and he answered that he did not kniw because she would not talk to him.

It was decided that Mrs. Williams had evidently fainted. Mrs. McCord advised the little boy to wash his mother's face with a wet cloth while they stood by on the telephone. He came back and said that it did not help.

It was determined from the child that the Williams' had no close neighbors. The two operators verified the names of others parties sharing the same telephone line. Mrs. Howard Rose, a party-line neighbor, was called and advised of the circumstances. The operators were assused that Mrs. Williams would be looked after.

When checking later in the evening the operators learned that Mrs. Williams had fained and they were assured by neighbors that they would stay with her until everything was all right.

The Williams family and the Telephone Company join in praising these two women whose promptness beyond the call of duty prevented possible serious reactions and brought assistance in a time of need.

Out of town guests in addition to Mr. Cox, were H. G. Turner, general manager; J. M. Phillips, Miss. Mgr.; Fred Weems, chief engineer, all of Jackson, and J. H. Foster, district traffic manager of Tupelo.

Wildlige League To Have Big Banquet Sept. 7th

Members of the Grenada Wildlife League are urged to attend a big meeting Tuesday night Sept. 7 at the city auditorium, at which meeting a representative of the District Engineers will turn over to the officials of the League the lease to the property, located near the 'lonesome pine' on old No. 8 east of Grenada.

A bountiful repast of stew and barbecue is being prepared for free distribution to those who attend this meeting.

It is urged that all members of this league be present, not only to partake of the fine feed, but also to witness the transfer of the 'papers' to the League.

Paynes Bin Bidding For "Valley Trade"

Paynes Gin, B. P. Prichard, Manager, seems to be bidding for the ginning of cotton grown along the 'valley' country.

'Moss Cleaners', they claim, 'do DOUBLE cleaning' and raises the grade of cotton ginned there one to two grades.

The gin is located at old Leverette, about eight miles north and east of Oxberry in Tallahatchie County.

Oil Is Where You Find It!

(By Mrs. W.W.W.)

Did you know that if oil was discovered and brought in in Grenada County that our town would very likely grow to a 25,000 population in a years time?

Vision the required machine shops, the house building program, the added school facilities, the people who would move in to work for oil companies and the maintenance crews, the roads to be built, and the prosperity to citizens owning mineral rights on their land.

The New York Journal recently listed Mississippi oil as one of the major developments of the country. Yet there are citizens who are scornful of such progress, who, by lack of cooperation or lack of interest, are holding back development. It requires community cooperation to progress, even if that cooperation often takes the form of wangling.

The area in which the oil drilling is in progress (Providence Community) has thousands of unproductive cut-over acres of land around it. Many who live in that area, have sold their timber and have only their creek bottom land left to make a crop on. There would be special prosperity backed by wealth in that part of the county (around Providence) if oil is brought in. And the entire county would prosper, especially the City of Grenada which would grow over night if oil were discovered anywhere in the county.

August Going Out Like A Lamb

Written August 31, 1954. August came in on Sunday August 1st. It has been hot and dry EVERY day. Afternoon temperatures ranged around 100 degrees, or more, EVERY day. Cotton, hay and pastures have wilted. Hopes of cotton farmers have shrunk.

Today was August 31, the last day of a dreary, hot month, but residents awakened Tuesday morning to a cool(?) 80 degrees. At its highest today the mercury hardly reached 90.

How long will the cool(?) spell last is the question on the lips of our long-suffering people.

Grocerymen To Continue To Close Wednesday Afternoons

According to Mr. Al Gully of Jitney-Jungle, the following grocerymen will continue to close their stores Wednesday afternoons:

Jitney Jungle, Liberty, Krogers, Spains Big Star, Wilsons, Bells Gro., James Grocery, Neelly's Grocery.

Mrs. F. L. Rook underwent an emergency major operation August 30 in Grenada Hospital when surgeons removed a kidney. Mrs. Rook was a surgical patient July 13th and had been able to be up and about the community. Her friends regret her illness and wish for her a complete recovery.

Mr. and Mrs. W. M. Rook and son Gary called on Mr. and Mrs. Sydney Clark and family of Big Creek on Sunday afternoon.

Mrs. Maurice O'Brannon of Maben is visiting Mr. and Mrs. James Shaw and daughter during the absence of her husband, who is serving with the Army overseas.

Our City Square Needs To Be Beautified

(By Mrs. W.W.W.)

The Square in Grenada is not attractive. It is not attractive because it has several old trees which have served their purpose, are too old to stand severe pruneing and whose roots sap all nourishment from the ground where repeated efforts to grow grass have been in vain.

If those trees were removed, the lawn thoroughly cultivated and fertilized, and evergreen grass seed sown, also evergreen shrubs and flowering shrubs then cultivate properly in the four corner beds which already are planted in shrubs, the Square would flourish as we would like for it to.

The fountain, with different arrangement of water basin, would really be a show place if, by the use of fountain lights we had what is termed a 'Colored Lights Fountain'. This could be done this fall and the colored spray fountain resting on a carpet of beautiful grass would be a joy to all who visit uptown Grenada.

Think it over, and lets do something different to beautify our town Square.

The colored fountain could be dedicated to Grenada soldiers of all wars, both the sacred dead and the living.

Let's do something very special to beautify the Square in Grenada.

—LETTER TO EDITOR—

707 Canal St., Troy, Ohio

Dear Sir:-

I am interested in finding records and reports about the McMath family, for family history purposts, and I have been advised of a family in your county, nearly a hundred years ago. There was a John S. McMath who went from your county to Denton, Texas; and another claim he was born in Ohio. Also, there was a brother of my great-grandfather who wnet from Ohio to Illinois, where he lived as late as 1856, whose name was Harland McMath, with three children in his home at that time.

Whether this John S. McMath was one of them, or not, it may be possible he had a brother or sister who may have spent a lifetime in Grenada County; and there may be descendents now that the older citizens of today may remember and where they are.

That is about what I want to learn now and I am sending you a dollar for some kind of advertisement or item in your personal column so you could report, after due time passes for a chance to get replies, 10 days or two weeks I suppose. I am not able to account for this John S. McMath being from Ohio, his birthplace, unless he is a son of Harland McMath.

Sincerely,

Daniel C. McMath, Sr.

Growing by Working

Lesson for September 5, 1954

"NOW I get me up to work,
I pray thee, Lord, I may not shirk.
When I lay me down at night,
I pray thee, Lord, my work be right."

These lines by an unknown author hung in the bedroom of a man who during his 85 years showed that his prayer was sincere. He was a Christian; and a Christian will think of his work as done always in the sight of God. A janitor of a church was asked why he kept a certain place behind the pulpit so clean. "Nobody can see it," he was told. "But God sees it," the janitor said. The Bible gives us some light on work in general, as God sees it.

Dr. Foreman

There Is No Free Lunch

The little church at Thessalonica was troubled with "moochers." The people there had got the idea that the end of the world was right around the corner. Jesus would come again soon, in their own lifetime. They did not see the use in working any more; the house they were building (for instance) would not be finished before the end would come; the crop they were planting would never be harvested before the Judgment Day. So these eager, expectant Christians just quit their jobs in droves . . . but of course they had to eat. So they became free-loaders, boarding with such members of the parish as did keep their jobs. When their traveling Bishop Paul heard about this, he wrote them a very plain letter; indeed he had said some plain words while he was there getting the church organized, only they seem to have forgotten it. "He that will not work, let him not eat," he said. Help the needy, yes by all means; but don't feed the lazy. There is only one basic rule of economics (as an economist has said) and it is one anybody can understand: There is no free lunch.

What Is Useful Work?

Now there is no special virtue in work, in itself. A man could work very hard shoveling sand from one pile on the beach to another pile, and back again, all day long. But it would do nobody any good. To be sure, he would be developing his muscles; but he could do that better some other way at some more useful job. The Bible's references to work always bring in the idea that the work is to be useful. Work that performs no service to any one is not for the serious Christian. This is a particularly important point for young Christians deciding on a life's work. We ought to work, of course, we don't want to be objects of charity, we don't want to be carried, we want to do something useful in the world. But what kind of work is useful? Paul told the Thessalonians that they should work with their hands, because they were all hand-workers; but some of the most useful work in the world is not done with the hands. Two points should be borne in mind: first that as a Christian I ought to seek the most useful work I can do, and second that I can be most useful in what I can do best.

Growing by Working

Work makes the man. Or at least, work shapes the man. Look at any picture of a high school senior class; they look all about alike, and for that matter look like any other senior class in America. But take a picture (if you could get it) of that same class twenty-five years later, or more, when they have all been at work in various jobs for years. Some may be drifters, ne'er-do-wells, and they look it: misfits because they have never stuck to useful work. The others who have stayed on one job or another, will look different by now, partly because of the kinds of work they have been doing. The housewife, the school teacher, the farmer, the banker, the writer, the soldier, the artist—they do not look alike any more. We grow by working. But there is another question too: Does my work help me to grow as a Christian? No doubt the slave-drivers of ancient Egypt grew by their work—grew more devilish; Moses was growing, out in the wilderness of Midian tending sheep. But he was growing more God-like. It is not simply what we do that counts; it is the spirit in which we do it.

(Continued from Last Week)

Mrs. Bertha Williams is visiting this week in the home of her son King Williams in Greenwood. Mrs. Williams' physical condition hasn't been very good this summer and her friends trust she will feel much better upon her return home.

Mrs. Wiley Brannon is in Cincinnatti visiting in the homes of her sons Floyd and Jack Tubberville.

Rev. Ralph Atkinson of Yazoo City and Clinton was the guest at dinner on Sunday in the J. W. Bowen, Sr. home and a supper guest of Mr. and Mrs. Clifford Marter.

Mr. and Mrs. Sidney Clark and children of Coffeeville, Rt. 2 visited Mr. and Mrs. F. E. Gillon Sunday afternoon. Mr. Gillon said: 'And they brought us one of the biggest watermelons I ever saw.'

Sunday afternoon guests of Mr. and Mrs. Earl Gillon were Mr. and Mrs. L. S. Clark, Greenwood and Mr. and Mrs. Elvin Earnest and son of Mathiston.

Grandmother of Mrs. G. H. Middleton Dies

Mrs. L. W. McCool of Kosciusko and grandmother of Mrs. G. H. Middleton died suddenly in her home Monday afternoon, August 23 of a heart attack. Mrs. Middleton, her husband, Rev. Gwin H. Middleton and family left Tuesday and remained in Kosciusko for the funeral services held Wednesday afternoon.

Sympathy is extended the bereaved ones in this hour of grief.

Mrs. Billy Shaw taught Chapter 3 in 'Hearts The Lord Opened' at the Pleasant Grove Woman's Missionery Society Monday afternoon held in the church. In addition to the devotional and business period a box of fruit and fruit juices donated and delivered to the home of a sick neighbor. The sun beams were led in a mission study by Mrs. Bob Stroud.

Harry and Donald Phillips spent Wednesday and Thursday in Tupelo visiting their sister Mrs. Kenneth Nail. Returning home they visited their friend Jack Rose in Baptist Hospital in Memphis.

Mr. and Mrs. H. V. Phillips accompanied by Donald Phillips spent the weekend in Drew visiting in the homes of their sisters Mrs. Clara Lucius and Mrs. Floyd Walker. On Sunday they were privileged to hear their nephew Rev. Charles Phillips of Baptist Seminary, Louisville, Ky. when he preached in the Baptist Church in the absence of the pastor, Dr. David Grant.

Some Benefits of Recent Rain

The wondeful showers of rain falling during the past week have brought life anew to the already mown grass on the beautiful highway leading through out community, has made the song of the birds clearer; refreshed the fall floyers, bushes and trees; gave courage to the merchants, farmers, garden & flower growers; purified the hot dry air, changing it into the first pungent odor of the approaching fall season - but most of all, it has increased our faith in the Maker of the earth through his tender loving care of us.

P.S.: Speaking of tender, loving care, I am reminded of a true incident in the life of a nurse when she found written on her chart of instruction in big letters - T.L.C. Finally, after an unsuccessful decision of the meaning of it, she hesitantly asked the physician. His answer was 'This patient needs lots of tender loving care.'

Mr. and Mrs. Hiram Davis and

IN APPRECIATION

I sincerely appreciate the wonderful vote of confidence the people of Grenada County gave me in the Democratic Primary election.

It is my purpose to continue to give you the same faithful service and render just and fair decisions as I have in the past.

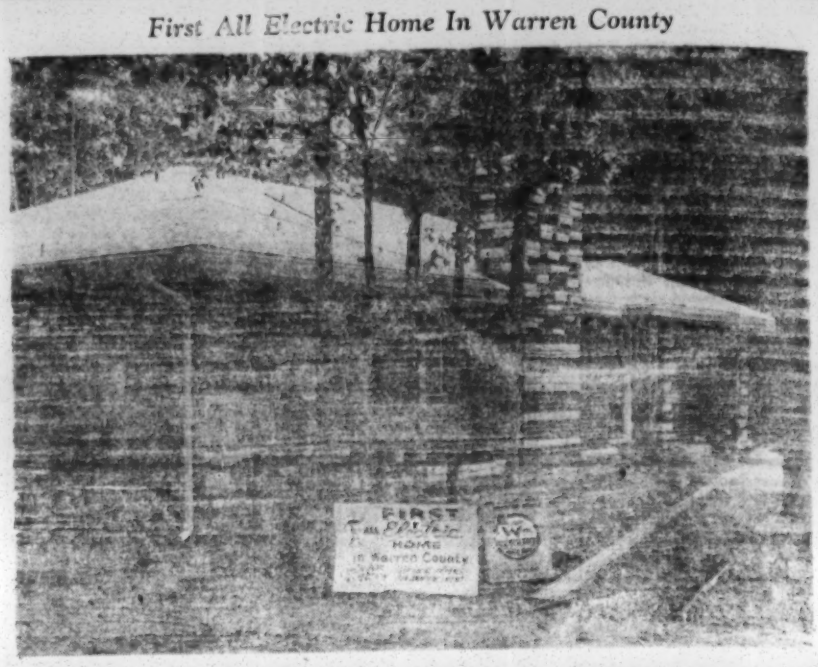
First All Electric Home In Warren County



Warren County Home Features Complete Modern Electric Living

Mr. and Mrs. Ross Ables are the proud owners of this first all-electric home in Warren County. Truly designed for modern, electric living, the home features Adequate Wiring certified by the Vicksburg Adequate Wiring Bureau, planned lighting, all-electric kitchen with facilities for a complete home laundry and automatic electric heating.

The home's electrical system was planned for convenience and efficiency, as well as safety, in accordance with the standards set forth by the National Adequate Wiring Bureau. Adequate Wiring greatly enhances the value of the home by providing facilities for present and anticipated future electrical requirements of the owner.

The all-electric kitchen with its clean, cool electric range, automatic dishwasher and waste disposer, and electric refrigerator makes cooking a real pleasure in this modern home.

The electric heating installation, using wall-recessed units which blend with the decor of each room is entirely automatic and is so designed that each individual room may be kept at the exact temperature desired with maximum operating efficiency and economy. These electric heaters are quiet, clean and as safe as an ordinary lamp bulb in operation. This heating system, which never burns the oxygen from the air, or raises the humidity causing the walls to sweat, is equal in performance to forced air systems costing much more and is actually cleaner than the forced air system.

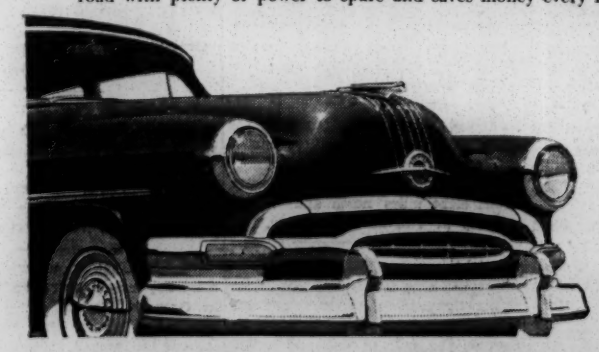
One of the principal features in this home, even though it cannot be seen, is the adequate insulation installed in the walls, floor and ceiling of this home. This insulation provides true operating efficiency of the electric heating system and insures comfortable living conditions throughout the home by keeping it uniformly warm in the winter. Also, it keeps the home much cooler during the summer and will provide for future air conditioning at minimum expense.

Local representatives of Mississippi Power & Light Company assisted in the design of the wiring and heating systems and the other electrical features of this home. This planning and design assistance is a part of the Company's service policy which is available to architects, builders and homeowners throughout Mississippi Power & Light Company's area.

4 Important Reasons why you should buy a PONTIAC *RIGHT Now!*

1 Pontiac is One of the Greatest Cars Ever Built!

Match today's Pontiac with America's finest cars and you'll get a dramatic picture of Pontiac value. First of all, Pontiac is big—bigger, in fact, than many cars costing hundreds of dollars more. Pontiac is beautiful—with its distinctive Silver Streak styling. Inside, you'll find genuine fine-car luxury and appointments—along with the roominess and comfort that come only with a long wheelbase. But the big surprise comes when you test Pontiac's performance. See how alert it is to every demand in traffic, how it handles and corners almost without effort, how it takes to the open road with plenty of power to spare and saves money every mile.



2 Pontiac has the Best Resale Value in its Price Class!

Along with all its fine-car size, luxury and performance, Pontiac has a very special attribute no car at any price can beat—its unsurpassed reputation for year-in, year-out dependability. Pontiac's carefree, economical long life and its proved record of amazingly low maintenance expense are so widely known and acknowledged that it commands the highest resale value in its price class. Because Pontiac is America's most desirable used car, your original investment comes back in greater measure when you trade.

3 Pontiac is Priced Just Above the Lowest!

After you've convinced yourself of Pontiac's value, after you've considered all the good things you've heard about its dependability—see how it compares dollar-wise. Despite the fact that it's a fine car in every sense of the term, Pontiac is priced so near the lowest that if you can afford any new car you can afford a Pontiac.

4 We'll Make You a Deal You Can't Afford to Miss!

Right now we're making such liberal trade-in allowances that you just can't afford to pass up the greatest opportunity you ever had to become a fine-car owner. Come in and get the facts.

DOLLAR FOR DOLLAR YOU CAN'T BEAT A PONTIAC!

The fellow who has erected the spanking new cotton gin out on 51 close to Quinn's is C. T. Miles, Jr. formerly of Calhoun City. They say he has all of the up-to-date contraptions that go with a modern gin. If I had any cotton to gin, as I used to have, I could contact him and see if he would give me one of those new billfolds he has for customers, not that I have anything to put into a billfold.

"Farm of the Week" – Last Week

—This Series Sponsored by Jitney-Jungle, Grenada.

The picture above is that of the home headquarters of Earl L. Gillon and is located on the Sam Gillon part of the landed estate containing 350 acres which is located on a gravel road a short distance from new No. 8 highway, on Buckputter Creek in Beat Two of Grenada Co.

Earl not only operates that part of his daddy's land, but also the Dr. Rouse old land nearby. The latter is, of course, now owned by the government which acquired it in the condemnation proceedings incident to getting the land for reservoir purposes.

Originally this land was part of the Richardson old farm in Beat 2. The land was bought by Mrs. Melissa Gillon and children in 1906 and, at her death was inherited by the Gillon heirs.

Earl married Miss Peggy McKee of Greenwood in December 1946 and they have three small daughters, Martha, Barbara and Peggie. The Gillons are affiliated with the Farm Bureau, the G. S. PTA, the Pleasant Grove (Baptist) Church and the GS Demonstration Council, and, better still, work with these organizations.

As a farming enterprise the installation, this is primarily a tractor farm. Mules are more or less pets around there.

35 acres of cotton and 60 acres of corn are raised in that level valley country. Much of the land is fenced, and registered Hereford cattle, and high-grade native cattle graze and fatten on those pastures.

While Sam Gillon, Earl's daddy, dont actually admit that he is retired, largely he has turned over management of his property to his descendents.

Young Mrs. Gillon, whom we interviewed, was not certain as to which Richardson once owned the property, the writer of this article hazards the guess that it was the old Watt Richardson property (and, by the way, please read that inquiry in this week's issue, 'looking up' the old Richardson family in this county).

BEAUTIFUL AFTERNOON PARTY ON WEDNESDAY

The handsome home on South St. of Mrs. L. J. Doak was the scene of a very lovely afternoon party on Wednesday between the hours of 4 to 6 when Mrs. Doak and her sister, Miss Robbie Doak were co-hostesses.

The home was lavishly decorated with florists arrangements of glads, in princess baskets, lovely roses and bright garden flowers which graced many of the small tables and the buffet. The sun room also was decorated with bright blossome. The tea table draped with an imported cloth, held elaborate silver trays of beautifully made tiny sandwiches, small nut cakes rolled in powdered sugar and a silver comport holding nuts. From a buffet server placed before the attractive windows tiny individual white cakes and decorated mints were served from silver platters.

The guests were greeted at the door by Mrs. A. M. Carothers and Mrs. L. E. Noble, and in the receiving line Mrs. Doak presented Mrs. Bob Alexander, who with her family recently moved here, and Mrs. George Perry who is leaving Grenada for Jackson where the Perry family will reside. Also in the receiving line was Mrs. H. A. Alexander, mother in law of Mrs. Bob Alexander.

Lovely young friends of the hostesses who served in the dining room were Misses Judy and Libby Lake, daughters of Mr. and Mrs. John Lake and Miss Clarice Townes, daughter of Mr. and Mrs. Junius Townes, who served punch.

Mrs. J. H. Oliver and Mrs. John Martin also assisted in the dining room. Miss Robbie Doak, one of the hostesses also greeted friends, and was assisted in this by Mrs. J. B. Perry Jr. as the guests entered the dining room.

Sixty ladies called during the appointed hours.

Mrs. Tom Gee of Holcomb is visiting her sister, Mrs. H. A. Shelton of Ellendale, Tenn.

Mrs. R. R. Lawton, nee Miss Olive Semmes left Satrday to return to her home in Los Angeles, after a months visit with her mother Mrs. Raphael Semmes, Sr. and family.

GHS FOOTBALL PICTURE
(By Hugh Ketchum)

Coach Bob Ellard and his assistants, Jerry Taylor and Carl Cooper, are launching a vigorous football program in Grenada High School this Fall in an effort to build the Bulldog squad to strong cnotention in North Miss. and Little Ten conference ranks. Ninety candidates have reported for gridiron activity, more than twice as many to participate in previous years.

Forty-seven players have reported for the varsity squad, which will pursue a 10-game regular schedule and an eight-game B team card. The B squad will open the campaign on Thursday night against the Greenwood B team at Greenwood. The first varsity game is carded for Sept. 10 at North Carrolton, followed by the home opener Sept. 17 against Houston.

An enthusastic group of 43 youngsters reported to Coach Cooper for the opening season of Pee Wee football, marking the beginning of what the local coaches believe will be a building program to assure the Bulldogs of future material. The Pee Wees will play at least eight games, and efforts will be made to schedule 10 games.

Coach Ellard takes over at the head of the Bulldog set-up this year after three years as assistant coach at Natchez and following last season here as assistant to Coach A. L. Bud Gerrard, who resigned earlier this year. Coach Tayor, a former Miss. State and Wyoming stand-out, will be making his debut in the coaching ranks this year. Coach Cooper also is making his initial coaching effort. He is from Delta State.

Pee Wee Football

Pee Wee football, inaugurated for the first time in Grenada High School history, is off to an enthusastic start with 43 candidates for the squad. Coach Carl Cooper, formerly of Delta State, is in charge of the youngsters and is working on a proposed 10-game schedule with Greenwood Oakland, Charleston, Batesville, and Winona. Plans call for the opening game in two weeks.

The Pee Wee weight limit is 122 pounds. The 43 candidates for the Grenada Bull Puppies weigh in from 75 pounds to 122 pounds. Coach Cooper, who plans to coach the T formation, announces that every position is wide open. The mentor expects to be forced to change around

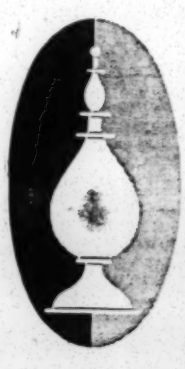
Monuments to courage



Progress in science has not been without opposition. Ignorance, superstition, and reluctance to accept the new frequently have impeded advance. Use of an anesthetic to ease the pain of childbirth was once decried by a clergyman, who called it a decoy of Satan. An eminent physician rejected the explanation of childbed fever when it was revealed that unclean hands of attendants spread the disease. Jenner, Lister, and others endured crushing ridicule and criticism. The vast assortment of life-giving drugs available today represents the contributions of the world's great medical scientists, past and present —enduring monuments to their courage, conviction, and intellect.

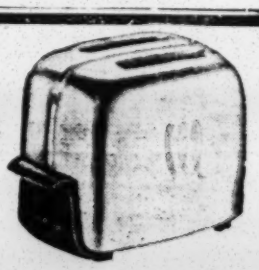
THIS USEFUL, VALUABLE GIFT IS YOURS . . .

(or another of your choice)



We'll see that you receive it as your reward for keeping a very simple egg-and-feed record. Your flock of layers can easily be a "PACE-SETTER FLOCK," proving the feed-saving power of

CALOGEN

the new energy ingredient in Swift's Egg-Laying Feeds

Studies and tests by Swift & Company on CALOGEN promise feeding efficiency never before achieved. You should expect results like these:

1. EXTRA EGGS from every bag of feed. Each bag of Swift's CALOGEN Layer Feed can easily account for 2 to 4 dozen extra eggs.

2. NEW, HIGH-RECORD FEED SAVINGS. CALOGEN can easily help save 1,000 pounds to *three tons* of feed per year, depending on flock size.

You can't lose . . . just buy your regular layer feed needs and earn useful gifts while feeding. Come in today and let us explain the real advantages of being a "PACE-SETTER FLOCKOWNER." (Offer closes November 1, 1954.)

Town Talk
BY
FED ROBINSON

There are ALREADY a Three Party System in these United States: Pepublican, Democrat and Cocktail. This you will learn if you travel about a little and observe the guys and gals pass through the hotel lobby in the early evenings with those long packages under the arm going to the elevator and to the rooms where tired and tensionized men have their little snort before dinner. There still is more money spent in this country for liquor than for both schools and churches.

This week the people of Arkansas did a most surprising and unpredictable thing when they turned out of the governor's office the very best man who has been governor of this state in a hundred years, and his name is Francis Cherry of Jonesboro. Some unknown and unheard of fellow named Poubus beat Cherry in number of votes simply because Mr. Cherry, governor for past two years, advocated that the tax burden of the state be more equally divided between more of the people who owe the tax. Cherry had organized and sent out tax men to check up on merchants who were found to be paying only a fraction of the sales tax they had collected from customers into the state treasury. His crew uncovered many firms who collected the two per cent on sales but had never remitted a dime of it to the state. He also advocated that every person pay all the tax they owed - personal and property - and not let the burden fall upon only some of the people, and for this he is voted out of office and the State of Arkansas slips back at least 25 years in its struggle for sovency.

Here is a piece from Carl White, Editor and Publisher of The Crane Chronicle, Crane, Missouri:

'What is An American?'

'He yells for the government to balance the budget and then takes the last dime he has to make the down payment on a car.

He whips the enemy nations and then gives 'em the shirt off his back.

He yells for speed laws that will stop fast driving and then won't buy a car if it can't make 100 miles an hour.

An American gets scared to death if we vote a billion dollars for education, and he's cool as a cucumber when he finds out we're spending three billion dollars a year for smoking tobacco.

He knows the line-up of every baseball team in the American and National Leagues - and doesn't know half the words in The Star-Spangled Banner.

An American is a man who will fall out with his wife over her cooking and then go on a fishing trip and swallow half-fried potatoes, burnt fsih and gritty creek water coffee made in a rusty gallon bucket and think its good.

He is the only fellow in the world who will pay 50 cents to park his car while he eats a 25-cents sandwich.

We're the country that has more food to eat than any country in the world and more diets to keep us from eating it.

We're supposed to be the most civilized, Christian nation on earth but still can't deliver payrolls without an armored car.

In America we have more experts on marriage than any other country in the word - and more divorces.

But we're still pretty nice folks. Calling a person 'a real American' is the best compliment you can pay him. Most of the world is itching for what we have but they'll never have it until they start scratching for it the way we did.' —Carl White.

Signs you are getting old: When you look at the menu before you look at the waitress. When you turn to the obituaries before you look at the sports page. When you can't tell 5's, 6's and 8's apart in the telephone directory. —Fed.

EXPERIENCED TELEPHONE MAN GETS NEW INFORMATION POST

JACKSON—Telephone users throughout Mississippi are to learn more about the operation of the Southern Bell Telephone and Telegraph Company's network and properties in the state, as a result of the appointment of a full-time Information Manager to work out of the company's headquarters here.

To fill the new job of Information Manager for the state, J. M. Phillips, Mississippi Manager for the Telephone Company announces the appointment of J. E. Turbeville, who assumes the post after more than 20 years experience with Southern Bell.

Mr. Turbeville's last position before coming to Mississippi was in the Company's General Offices in Atlanta, Georgia where he served since 1952, first as Customer Relations Supervisor and more recently as Information Supervisor in the Public Relations Department.

His telephone career began at Birmingham, Alabama in January, 1934, his first assignment being with the commercial department.

After approximately three years in that position, Turbeville transferred to Atlanta, Georgia, as a Directory Advertising Salesman, and in 1938 he returned to Birmingham as a Salesman of Directory Advertising.

Following several years of commercial experience in the business office and in sales work, he went to Montgomery, Alabama as Supervising Customer Service Engineer. After two years in this posion he became Public Office Manager; and a year later was elevated to the Management of the Montgomery exchange.

Mr. Turbeville is a native of Jasper, Alabama, and received his education in the schools of that city and Birmingham and attended Birmingham Southern College at Birmingham.

He is married to the former Annis Delle Faught, of Oklahoma. The couple have two children, a son Michael, 4 and a daughter Kay, 8. The Turbevilles are Episcopalians and have just moved in to a newly purchased home in Jackson. It is located on Meadowbrook Road in Forest Park.

8 ET 40 ELECT OFFICERS

Salon No. 436 stated that in his opinion the service rendered by the telephone company in peace and war exceeded by far any profit the company may have earned for its stockholders.

Others who spoke briefly were E. K. Lumpkin, of Jackson, Southern Bell District Manager, Mrs. Bryant L. Johnson of Roxie, and Public Service Commissioner I. S. (Ike) Sanford.

H. G. Turner, Southern Bell's General Manager in Mississippi also attended the dedication along with F. C. Weems, of Jackson, the company's Chief Engineer in the State and L. E. Slawson, Mississippi Rural Development Supervisor for Southern Bell.

Concluding feature of the program was the first long-distance conversation over the new facilities between Lion's Club President Erle Breeden and J. G. Bradbury, Operating Vice-President of Southern Bell in Atlanta.

The entire program was tape-recorded and broadcast between 3 and 4 o'clock the same afternoon by Natchez Radio Stations WMIS and WNAT.

ROXIE—Approximately 450 people gathered here Wednesday for ceremonies marking the start of rural telephone service over new facilities just completed by the Southern Bell Telephone and Telegraph Company.

The celebration which was held at the Roxie Consolidated School, was sponsored by the Lion's Club and included addresses by men and women of prominence in the community and the State. Musical entertainment was furnished by the Case String Band of Fayette; and at the conclusion of the formal program the big crowd was treated to a delicious barbecue luncheon provided by the Lion's.

The principal address was by J. M. Phillips of Jackson, State Manager for Southern Bell, who told an entertaining story of the development of communication from smoke signals of the aborigines to today's coaxial cable and microwave towers, carriers of television programs and simultaneous telephone conversations running into the thousands.

"We always feel like celebrating when we complete another rural telephone project," Mr. Phillips said, "it's a great day for everyone, especially when a rural dial switching unit is part of the facilities to be placed in service.

"These rural dial switching units, he continued, "just fit the conditions of widely scattered population such as we find in many parts of our State, because they enable us to serve more rural homes and business houses at a cost that the telephone company and our customers can afford.

"The rural dial switching unit we are placing in service here today is the 24th to be installed in Mississippi since December, 1949." Mr. Phillips concluded, "and more of them are scheduled for other points in the State as we continue to extend and improve our rural telephone network in the State as rapidly as possible."

The project was placed in service at the conclusion of the brief ceremonies when a switch was closed by Ann Whitehead, Deborah Higginbotham and Lyda Grace Mullins, youngest members of three prominent Franklin County families.

According to Grady Sargent of Natchez, Southern Bell's Group Manager for the area, the new facilities will serve approximately 100 rural customers in the Franklin County communities of Roxie, White Apple, Hamburg, Orange and others along with a number of customers between Fayette and the Jefferson County line. A few of these have been served previously from Fayette.

Mr. Sargent stated that the new rural dial switching unit here will be connected by trunk lines to the Fayette exchange and that all of the new telephones will be considered a part of that exchange. These customers may make any number of calls to any other local customer whose telephone is connected to this Fayette exchange without additional charge above their regular monthly rate for service.

The brief remarks by Mrs. Clifford Whitehead and R. B. Haltom, both of Roxie, were an unusual feature of the program. Mrs. Whitehead spoke interestingly of the way the new telephones would save time and effort for the church women, club members and homemakers of the community, while Mr. Haltom foretold how faster communication will help farmers and merchants to keep in touch with each other and their markets as well.

Master of Ceremonies for the affair was R. N. Scott, Roxie druggist and members of the Franklin County Board of Supervisors. The Reverend R. J. Gilbert, Pastor of the Roxie Methodist Church, read the invocation and Mayor H. A. McCall delivered the address of Welcome. The response was by W. E. Boggan, County Superintendent of Education. Chancellor Sebe Dale of Columbia, District Governor of the Lion's Club, stated that in his opinion the service rendered by the telephone company in peace and war exceeded by far any profit the company may have earned for its stockholders.

To The Voters of Grenada County

Thank you for the wonderful vote you gave me in my race for Chancery Judge. I deeply appreciate the splendid support you gave me, a political newcomer, in my first campaign for public office.

I shall always treasure the many friendships made and renewed during the weeks I campaigned. I hope to see and personally thank as many of you as possible in the near future.

Sincerely yours,

FRED M. BUSH, JR.

Locomotive bells and school bells *both ring* **for your youngsters**

When you hear locomotive bells along the Illinois Central, they are ringing for your schools and the education of your children.

The freight hauled behind the clanging engine bells helps your community build schools, buy books and pay teachers. Last year the Illinois Central paid more than $47 million in taxes, nearly twice the railroad's total profits. A considerable share of these taxes went to support schools in communities along the railroad.

Taxes are not the sole contribution of the Illinois Central to education. Thousands of Illinois Central people take an active personal part in local school affairs. Many serve on school boards and participate in school activities. All bear their fair share of individual school taxes.

The Illinois Central is proud to share in the progress of education for our young people. It is one of the many ways in which we are privileged *to earn* the right to your continued friendship and patronage.
